

“The East Ward has been underrepresented at Tenant Association and Council meetings.

I will be a Councilwoman who listens to you and fights hard for what you want and need most.

I stand for a more culturally accurate depiction of the African American plight in the U.S. including the residual affects of racism.

Most important, I will be a strong advocate for residents of the East Ward. We must hold one another up.

It is the little “i” and the big “WE” that will make a difference in our abilities to put this town back on track.”
